# OUR STORY

- **SPATIAL EXPERIENCE Strategic & Marketing Consultancy** is a approachable, professional and full service marketing company. We not only offer advice on how to get the best from your marketing activity. We can also deliver the initiatives that this advice identifies.
- We have one core "type" of client - an organization that doesn't have a full internal marketing function, but who really needs help or advice with how their business, their brand, their products and/or their services are marketed.
- We work with our clients; either helping them to become better at the areas of marketing that they may not be able to do themselves or taking the whole marketing process off their desks onto ours and then planning and delivering what marketing is needed efficiently, effectively and at the best costs.

# Products
